FYI Only -- I've worked with the folks upstairs to get this letter signed...and also worked with Jeannine and OSCR -- they've agreed to use the final version to respond to each individual who signed the same letter -- since they are coming in from HQ piecemeal. This way they won't need to send you every incoming letter as a control...and they will assume the responsibility for addressing each letter appropriately and getting it signed. hopefully this will make things easier for you -- but if you should start receiving them as controls, please let me know. thx. joan

Although never officially assigned - this control is completed, and the original was mailed out. I will be using this letter as a basis to respond to similar controls. I've also attached the incoming for your records.
